Congratulations Jeff & Ed - October Winners!

The 50/50 drawing was won by two long time members. Edward Krumphanzl of Treadway Tire & Auto Service won the 50/50 drawing.

Jeff Szikula of Delta Automotive won the high quality Multimeter donated by AATEC.

Next ATA Meeting:

Dec 3rd 7pm

“EVAP Systems: Theory of Operations & Diagnostics Strategies”

by John Forro

If You Missed The Oct Meeting - You Missed A Lot!

Mark Maser, of Ford Motor Co. presented:

2003 and Beyond: New Technologies For FORD

Mark Maser put on a very informative seminar and told us about a lot of new problems that our members should be aware of and to watch out for. The new things coming from Ford Motor Co. are very complicated. The tips and tricks Mark Maser warned us about should help the ATA members to fix and repair Ford automobiles. Members are eligible to download special material from the ATA website. Mark also would like to have us come to the Ford Training center spring seminar.

What Else Have You Missed If You're Not Coming to ATA Meetings?

Below are a few of the training topics and quality speakers ATA has brought to our members.

Meetings like these are just a few ways you can benefit from your ATA membership.

Membership is only \$35 per year. What a deal! Join today.

- Chrysler Driveability & TSB's - Kevin Smith, Master Technician
- Ford Multiplexing - Mark Maser of Ford Motor Co.
- Honda & Toyota Tips & Tricks - Tom Rayk
- OBD II Tips & Tricks - Jim Moore, VP Aspire
- Working with Wiring Diagrams - Ron Ziska, EPA Instructor
- Ford Powerstroke - Bruce Amacker, Turbo Training
- Mobile AC Service: Focus on AC Diagnostics, Contamination, Sealers & New Rules for 2003 - Gary Halpern, VP Neutronics
